3855 West Highway 14  
Owatonna, MN 55060

Cheryl,

The results of the lighting retrofit completed at Crown Cork & Seal has yielded very positive results. Several of the employees told me that they have noticed a dramatic increase of light levels throughout the facility. Your support in working with the utility company to secure our rebate was greatly appreciated, and the crews that performed the installation were professional, on time, and worked safely. Now that the installation is complete, we have begun to see the projected decrease in lighting costs.

Thanks to The Retrofit Companies for helping to make our lighting project a success.

Pat Sheehy  
Plant Manager  
Crown Cork & Seal
