

5 Ways To

# SAVE ENERGY

During Building Shutdowns

## LISTEN, LOOK, FEEL

Walk your facility

Verify all equipment is off

## LIGHTS

Turn off all unnecessary lights, including Display lighting and common area lighting

Set interior & exterior lighting to unoccupied schedules

## UNPLUG

Unplug all appliances, electronics, AV equipment, vending machines etc.

## CLIMATE

Adjust thermostat & humidity controls to unoccupied settings

## CLOSE UP

Close all blinds

Ensure doors & windows are properly locked/sealed
